**Amendments to the drawings:**

Please substitute two replacement sheets of figures attached as appendix A to this paper for Figs. 3-4 and Fig. 10 of the application. No new matter has been added to the application by amending the drawings.

Figs. 3-4 have been amended by substituting numeral "19" in place of numeral "20" for the horizontal return pipe. Support for the amendment is found at least in the specification, paragraph [0034], and in Fig. 6, which depicts the horizontal pipe as labeled with numeral "19".

Fig. 10 has been amended by adding pump 47, inlet line 43, and pipe coupling 22. Support for the amendment is found at least in the specification at paragraphs [0033] and [0041] and in Figs. 1 and 7.

#### Remarks/Arguments

1. The Application has been amended in the specification, in the drawings, and in the claims. A terminal disclaimer has been submitted by an officer of the assignee of the present application and is transmitted with this amendment. Claims 1-12 are pending in the application and Claims 13-14 have been canceled to place the application in condition for allowance.

2. The specification has been amended to correct grammatical, plurality, and punctuation errors, in addition to reciting better phraseology within the application. Support for the amendments to the specification are found in the specification as filed. Support for the amendment to paragraph [0030] is found at least in Fig. 10. Support for the amendment to paragraph [0032] is found at least in paragraph [0032] as filed and in Fig. 1. Support for the amendment to paragraph [0033] is found at least in paragraph [0034], and in Figs. 6-8. Support for the amendment to paragraph [0039] is found at least in Fig. 9. Support for the amendment to paragraph [0040] is found at least in paragraph [0040] itself and in Claim 12 as filed. Support for the amendment to paragraph [0041] is found at least in the specification at paragraph [0033] and in paragraph [0041] itself.

3. Figs. 3-4 of the drawings have been amended to correct the numeral designating the horizontal return pipe. Support for numeral 19 is found at least in Figs. 6-8. Fig. 10 has been amended to add a pump and a return line between coupling 22 and the pump discharge piping 50. Support for the amendment is found at least in the specification at paragraphs [0033] and [0041].

4. Claims 13-14 have been canceled to place the application in better form for allowance. Claims 1-12 have been amended. Support for the broadening amendment to Claim 1 is found at least in the specification at paragraph [0032], and in Figs. 1-2 and 6-8. Support for the broadening amendment to Claim 3 is found at least in paragraph [0032] and Figs. 1-2. Support for the broadening amendment to Claim 4 is found at

least in paragraph [0033]. Support for the broadening amendment to Claim 7 is found at least in the specification at paragraph [0036]. Support for the broadening amendments to Claims 8-9 is found at least in the specification at paragraph [0043]. Support for the broadening amendment to Claims 10-11 is found at least in the specification at paragraphs [0020] and [0032]. Support for the broadening amendment to Claim 12 is found at least in the specification at paragraph [0040].

5. The application is now in condition for allowance. The assignee has executed a terminal disclaimer and the Applicants have canceled the claims which were earlier restricted out. Applicants request the Examiner to enter the amendment and to allow Claims 1-12 of the present application.
